

THE PUBLIC LEDGER

No improvement in condition of the market for tobacco. Farmers are almost ready to offer their crops for sale.

There was no improvement in condition of prices on the Mayville loose-leaf market today and again a loud howl was heard from the growers who had small amounts of the weed on the floors to offer. From the very little tobacco that is being delivered, it appears that the farmers are waiting for some improvement in prices before they are going to offer their crops for sale.

Warehousesmen are not talking much about the present slump except they say that the crop this year is unusually poor and all admit that the withdrawal of the American Tobacco Company's buyers from the market has had much to do with the slump. The return of these buyers is expected daily and warehousesmen say that when they do appear things will be quite normal again although growers must not expect to receive a high price for a low grade of the weed.

TO STOP TYPHOID SPREAD

The spread of typhoid fever in Mayville within the past few days has been such as to cause some alarm among the health officials of the city and this morning Dr. Rice, County Health Officer, again issued orders to the Water Company to put enough chlorine in the city water that it can be taken despite the many complaints that have been lodged by citizens at the terrible odor and taste from the water.

Dr. Rice stated this morning that during the month of December there have been 17 new cases of typhoid reported in the city and during the past three days physicians have reported six new cases which is large enough to cause some alarm. The new cases are: Owen C. Canoe, Forest avenue; Gordon Wood, Lexington street; Mrs. Rankin, Carmel street, son of Riley Williams, L. & N. railway; daughter of Fiedling Green, Fourth street and Mr. Elkins, West Second street.

The Health Officer states that he has plenty of typhoid vaccine which he will gladly give to any physician applying and he urges its free use. If the condition does not clear up within the week, the Health Board may be called together and asked to pass a resolution compelling members of families where there is a typhoid patient to be vaccinated immediately.

All modern Grafoniolas are made with turntables set down in cabinet, not on top of cabinet, as some second-hand dealers are showing. CHANDLER SIX
Famous For Its Marvelous MotorChandler Leads Where
Performance Counts

WHEREVER men ask much of their automobiles the
Chandler dominates. In the mountain countries it per-
forms as many cars with larger motors do not perform. Climbing
steep grades with the sharpest turns on high, creeping up and
up at six or seven miles an hour on high without a miss or a
skip or a sign of effort, where others shift, the Chandler holds
for its driver the thrill of really satisfactory motoring.

In country roads of mud or sand, and in the congested
traffic of crowded city streets, this same power and this same
flexibility show their qualities.

The Chandler leads the whole six-cylinder group so distinctly
because it is such a good car and so fairly priced.

There's no better time than NOW to place your order.

TIME IS THE TEST

The Testimony of Maysville People Stands the Test.

The test of time is what tells the tale. The public soon finds out when misrepresentations are made, and merit alone will stand the test of time. Maysville people appreciate merit, and many months ago local citizens publicly endorsed Doan's Kidney Pills; they do so still. Would a citizen make the statement which follows unless convinced that the article was just as represented? Below is testimony such as the sufferer from kidney trouble is looking for:
"Henry S. Gallenstein, blacksmith, 424 W. Third St., Maysville, says: 'My kidneys were out of order and I had pains through my back. Doan's Kidney Pills put an entire stop to the pains and my kidneys became well.' (Statement given January 2, 1912)."

RESULTS THAT REMAIN
Over four years later, or on November 14, 1916, Mr. Gallenstein said: "I haven't had any need of a kidney medicine since I last recommended Doan's Kidney Pills. The benefit they gave me has been permanent."
Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Gallenstein had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

IN THE DAY'S NEWS

The only New York Surrogate to retire by reason of the age limit and not through death, disability, removal or defeat at the polls is Robert Ludlow Fowler, who quits the bench today on account of having reached the age limit of seventy years. The office of Surrogate in New York is a very old one. It was established more than a century ago—in 1917—and among the early Surrogates were many distinguished men. Judge Fowler was a well-known practicing lawyer when he was appointed Surrogate by Governor Dix. During his term of office he was decided thousands of motions and passed upon probate disputes in cases involving upwards of two billions of dollars.

Lodger Service—Efficiency.

WHY, OH WHY?

Harp so much about averages—we could fill this space with ours and then you would know very little about the market.

What the seller wants is attention and full value for his tobacco, whether the crop is HIGH, MEDIUM or LOW GRADE.

Most growers in this territory are unfortunate with the crop this year, by having it short in weight and that, not the best in the world. Appreciating this fact, we expect as usual to give the same attention to all regardless of quality.

To find out who are making the SATISFACTORY SALES and having the SMALLEST REJECTIONS look around and see for yourself.

MASON GETS MUCH OF THE U. S. MONEY SPENT IN STATE

Government Spends Large Sum in Health Work in Kentucky—Mason County Gets Large Share.

Frankfort, Ky., December 31.—Fully \$30,000 annually has been spent in Kentucky by the United States Public Health Service in conducting three hospitals, a large number of traveling clinics and dispensaries for the eradication of trachoma.

The work has been under supervision of Dr. John McMullen. In his report to Governor Morrow on the State Board of Health, State Inspector and Examiner Henry F. Turner says:

"It is one of the finest pieces of sanitary work that has yet been done. Not one penny has been spent by the State Board of Health for this work, every dollar having been put up by the United States Public Health Service."

The report of Inspector Turner covers a period of four years from 1916 to 1919 and during the first two years of the report Inspector Turner says that the United States Public Health Service continued the survey of the Ohio River shed, covering practically the source of public water supply for Kentucky at an annual expense of between \$30,000 and \$50,000.

The International Health Board during the past four years, has furnished the State Board of Health with \$3,300 each year, and this money with a like amount from the State's appropriation, has been expended in Mason county for the conduct of the County Health Department. Maysville, the Mason County Health and Welfare League, put up a like sum. In addition to this, the United States Public Health Service has expended from \$3,000 to \$7,000 annually in co-operative demonstration work in Mason county.

During the four years 52,551 specimens were examined in the State Board laboratory. In commercial laboratories such examinations would cost \$2 each. During the same period 411 patients with rabies have been treated and this treatment would have cost the patients at least \$100 each if they had been treated elsewhere.

During the period 7,308 packages of diphtheria antitoxin were shipped from the offices of the State Board of Health, saving the purchasers \$14,616.

Through the cooperation with the Kentucky Tuberculosis Association and an insurance company the State Board of Health obtained the services of Miss Helen Williams as State supervisor of public health nursing, her salary from the State being \$1 a year.

Through activities of the Kentucky Tuberculosis Association and with the aid of the American Red Cross and the insurance company the State Board of Health has placed fifty-six public health nurses in the State at an average salary of \$125 a month, of which the State pays \$25.

The United States Public Health Service, under the Kahn-Chamberlain act, has appropriated to this State for the past year the sum of \$25,000 for the establishment of a bureau of venereal diseases.

After January 1 this amount will continue to be furnished to the State Board of Health only upon the condition that the General Assembly provide a like amount, dollar for dollar.

The United States Public Health Service has provided the State Board of Health, through a portion of the past year, with the service of Captain Harub, sanitary engineer, thus saving the State \$5,000.

ANNOUNCEMENT

We beg to announce that the orchestra of the ENRICO FILIPINO SERENADERS, (Refined Instrumentalists) will render a very exceptional MUSICAL PROGRAM for the New Years Dance to be given by the Maysville Assembly at Neptune Hall.

We expect the attendance of your unsolicited patronage, as this is positively the most exceptional music for any dance given,—being new to the American people,—so different from the ordinary orchestra and Jazz Band music,—so seldom heard in the United States. The press in the larger cities has said much about them and we are fortunate indeed, in securing their services.
